

What to do if your vehicle is scrapped.

- ➔ You must take your vehicle with its own number-plates to an authorised treatment facility who will make sure that it's dismantled in an environmentally friendly way.
- ➔ You must give to the Authorised Treatment Facility the CARTA DI CIRCOLAZIONE and CERTIFICATO DI PROPRIETA' of the vehicle and it will release you a Certificate of Destruction straightaway if it agrees to take your vehicle.
It will arrange for the vehicle record at PRA to be updated with a Notification of Destruction and you'll be no longer responsible for it. Anyway, remember to keep the certificate as proof that the vehicle has been destroyed and you're no longer responsible for it.
- ➔ If you've lost your Certificato di Proprietà, Carta di Circolazione or one or both number-plates, you must report the loss at a local police station; then give the report to the Authorised Treatment facility and it will arrange for the recording at Pra as explained above.
